

DISEASE DIAGNOSTIC LABORATORY

The Disease Diagnostic Laboratory (DDL) was established at the College of Veterinary Science, Rajendranagar, PVNRTVU, Hyderabad, for the diagnosis of important animal diseases, which has now been NABL accredited (No. TC-13946) for testing the Infectious Bovine Rhinotracheitis (IBR) virus in semen ejaculates using Real-time PCR.

The DDL has state-of-the-art facilities and well-trained professionals to perform the tests mentioned above in a timely manner. We request that the semen samples of cattle and buffaloes for testing of IBR virus by real-time PCR be sent to DDL, CVSc, Rajendranagar, PVNRTVU, Hyderabad-30 (for any queries, please contact Dr. P. Kalyani, Technical Manager, DDL, Mob. No. 9550862090; Email: dddipvnrtvu@gmail.com).

The price for IBR screening in semen samples by real-time PCR is fixed at Rs 400.00 per sample (GST exempted). The samples may be forwarded to the following address:

Technical Manager,
Disease Diagnostic Laboratory,
First floor, Dept. of Veterinary Biotechnology
